SMART READER INTERFACE

Important Function on Menu Bar

#### Text Input and Annotation Tool

For keeping the similar usage like reading paper books, we develop special text annotation tool and various marking functions in Smart Reader.
Let us show the sample below：

1. Open one E-Book title.
2. When you turn to the specific page and want to highlight some important words or paragraphs. You can choose the highlight or underline tool under drop bar of Note function in the menu list.

3. You will see the special effect like highlight if you use "Highlight Tool" to select the specific words or paragraphs. You can see the sample below:

4. Note function：Select 〝Insert Text Tool〞 within Note function and move your cursor to the place to input the text. When you finish to write your note, you can select 〝Save 〞 to keep your thought within this title and check them when you read this eBook again.

MY LIBRARY INTRODUCTION

1. My Library is user's personal library service in client end.

2. Program will save the full reading list and information for user.

3. User can classify and manage E-books according to personal arrangement.

4. Downloading percentage will be displayed when user download the book.

5. Every book can be viewed for 30 days.

EBOOKS READER (ONLINE READING)

When user on detail bibliography page, he/she can click 〝Online Reading〞 function and the system will launch the Online Reader immediately.
