1. **Estrogen therapy** and Alzheimer's **dementia**.
[Review] [79 refs]

Craig MC. Murphy DG.
Annals of the New York Academy of Sciences.
1205:245-53, 2010 Sep.
[Evaluation Studies. Journal Article. Review]

UI: 20840280

Previous studies in postmenopausal women have reported that **estrogen treatment** (ET) modulates the risk for developing Alzheimer's **disease** (AD). It has recently been hypothesized that there may be a "critical period" around the time of menopause during which the prescription of ET may reduce the risk of developing AD in later life. This effect may be most significant in women under 49 years **old**. Furthermore, prescription of ET after this point may have a neutral or negative effect, particularly when initiated in women over 60-65 years **old**. In this paper, we review recent studies that use in vivo techniques to analyze the neurobiological mechanisms that might underpin estrogen's effects on the brain postmenopause. Consistent with the "critical period" hypothesis, these studies suggest that the positive effects of **estrogen** are most robust in young women and in

Managing Results -- Annotation

The screenshot displays the Ovid interface for managing search results. A modal window titled "Annotate:" is open, showing details for a record by Brinton, Roberta Diaz. The record is titled "Estrogen regulation of glucose metabolism and mitochondrial function: therapeutic implications for prevention of Alzheimer's disease." and is a review with 121 references. The journal is "Advanced Drug Delivery Reviews", volume 60, issues 13-14, pages 1504-11, published in 2008 (Oct-Nov).

The modal window shows one existing annotation by myra shields, Ovid Technologies, with the text "Keep this record." and a modification date of 2010-Apr-19 12:01:52 PM. There are "Edit" and "Delete" options for this annotation. A "+ Add Annotation" button is also present.

The background interface includes a sidebar with search terms like "cenestin", "enjuvia", "c.e.s.", "ces", "congest", "treatment", "therapeutic aspects", "disease management", "therapy", "therapeutic procedure", "therapeutic interventions", "therapies", "treatments", "remedy", "relief", "amelioration", "alleviation", and "remedies". On the right, there are links for "Full Text", "Internet Resources", "Bibliographic Links", "External Resolver", "Document Delivery", "Library Holdings", "Ovid Full Text", "Abstract Reference", "Complete Reference", "Find Similar", and "Find Citing Articles".

Managing Results -- Print

The screenshot shows a search results page with a 'Print Citation List' dialog box overlaid. The dialog box has a title bar with a close button (X) and contains the following sections:

- Print Citation List:**
- Selected Results:** 1-4
- Select Fields to Display:**
 - Citation (Title, Author, Source)
 - Citation + Abstract
 - Citation + Abstract + Subject Headings
 - Complete Reference
 - Custom Fields
- Select Citation Style:** (dropdown menu)
- Include:**
 - Search History
 - Annotations
-

The background interface shows search results for 'estrogen' and 'menest'. The first result is selected. The 'Print Citation List' dialog box is centered over the results, partially obscuring the first result's details. The 'Complete Reference' option is selected under 'Select Fields to Display', and 'Ovid Labeled Citation' is selected in the 'Select Citation Style' dropdown. The 'Include' section has both 'Search History' and 'Annotations' unchecked. The 'Print Preview' button is visible at the bottom right of the dialog box.

Managing Results -- Email

The screenshot displays the Ovid email management interface. On the left, a list of search terms is visible, including '2 and 2005:2010.(sa_year)', 'estrogen', 'menest', 'premarin', 'cenestin', 'enjuvia', 'c.e.s.', 'ces', 'congest', 'treatment', 'therapeutic aspects', 'disease management', 'therapy', 'therapeutic procedure', 'therapeutic interventions', 'therapies', 'treatments', 'remedy', 'relief', 'amelioration', 'alleviation', 'remedies', 'therapeutic relieve', 'ameliorate', 'alleviate', 'relieving', 'alleviating', 'alleviated', 'ameliorated', 'relieved', 'management', and 'alzheimers'. The main area shows the email configuration for 'mshields@ovid.com'. The 'To' field is empty, and the 'Subject' is 'OvidSP Results'. The 'Message' field contains the text: 'Ovid Technologies, Inc. Email Service', 'Search for: 2 and 2005:2010.(sa_year).', and 'Results: 4'. There are checkboxes for 'Send me a copy' and 'Send citation list as an attachment'. Below the message field, the 'Selected Results: 1-4' section is visible, with options for 'Select Fields to Display' (Citation, Citation + Abstract, Citation + Abstract + Subject Headings, Complete Reference, Custom Fields) and 'Select Citation Style' (Ovid Labeled Citation). The 'Include' section has checkboxes for 'URL to Ovid fulltext in citation', 'Search History', and 'Annotations'. At the bottom, there are 'Cancel' and 'Send Email' buttons. On the right side, there are several panels with options like 'Abstract Reference', 'Complete Reference', 'Find Similar', 'Find Citing Articles', 'Full Text', 'Internet Resources', 'Bibliographic Links', 'External Resolver', 'Document Delivery', and 'Library Holdings'.

Managing Results -- Export

The screenshot shows the Ovid search interface. On the left, the 'Search Information' panel displays the search criteria: '2 and 2005:2010.(sa_year).'. Below this, a list of search terms is shown, including 'estrogen', 'menest', 'premarin', 'cenestin', 'enjuvia', 'c.e.s.', 'ces', 'congest', 'treatment', 'therapeutic aspects', 'disease management', 'therapy', 'therapeutic procedure', 'therapeutic interventions', 'therapies', 'treatments', 'remedy', 'relief', 'amelioration', 'alleviation', 'remedies', and 'therapeutic'. The main results area shows two entries, each with a 'Relevance:' field and a 'Unique Identifier' field. The first entry is selected. An 'Export Citation List' dialog box is open in the foreground, allowing the user to export the selected results. The dialog box has the following options:

- Export To:** Microsoft Word
- Selected Results:** 1-4
- Select Fields to Display:**
 - Citation (Title,Author,Source)
 - Citation + Abstract
 - Citation + Abstract + Subject Headings
 - Complete Reference
 - Custom Fields (with a 'Select Fields' button)
- Select Citation Style:** Ovid Labeled Citation
- Include:**
 - URLs to Ovid full text in citation
 - Search History
 - Annotations

Buttons for 'Cancel' and 'Export Citation(s)' are located at the bottom of the dialog box. The background shows a list of search results with various options like 'Abstract Reference', 'Complete Reference', 'Find Similar', 'Find Citing Articles', 'Full Text', 'Internet Resources', 'Bibliographic Links', 'External Resolver', 'Document Delivery', and 'Library Holdings'.

Managing Results - Keep Selected

The screenshot displays the OvidSP search results interface. On the left, the 'Search Information' panel shows the search criteria: '2 and 2005:2010.(sa_year)' and a list of search terms including estrogen, menest, premarin, cenestin, enjuvia, c.e.s., ces, and congest. The main results area shows a single result with a checked checkbox, a 5-star relevance rating, and a unique identifier of 19632300. The authors listed are Meng Y., Wang R., Yang F., Ji ZJ., Fang L., and Sheng SL. The title is 'Amyloid precursor protein 17-mer peptide ameliorates hippocampal neurodegeneration in ovariectomized rats.' The source is 'Neuroscience Letters, 468(2):172-7, 2010, pp 14'. On the right side of the result, there is a 'Keep Selected' button and a list of options: Abstract Reference, Complete Reference, Find Similar, Find Citing Articles, Full Text, Internet Resources, and Bibliographic Links. The top navigation bar includes 'Results Tools', 'Options', 'Select All', 'Print', 'Email', 'Export', 'Add to My Projects', and 'Keep Selected'. The view is set to 'Abstract' with '100 Per Page' and '1' result shown.

Creating Resource Groups

The screenshot displays the Ovid interface with a modal dialog box titled "Add Resource Group:". The dialog contains the following elements:

- Group Name***: A text input field.
- Description**: A text input field.
- All Resources***: A list of resources with checkboxes and information icons. The list includes:
 - All
 - Adis Journals@Ovid
 - Books@Ovid July 27, 2012
 - Clinical Evidence Issue 15, November 2007
 - Journals@Ovid Full Text July 30, 2012
 - Your Journals@Ovid
 - PsycARTICLES Full Text
 - EIRA Journals@Ovid
 - Transplant Library July 18, 2012
 - EBM Reviews - ACP Journal Club 1991 to July 2012
 - EBM Reviews - Cochrane Central Register of Controlled Trials July 2012
 - EBM Reviews - Cochrane Database of Systematic Reviews 2005 to July 2012
 - EBM Reviews - Cochrane Methodology Register 3rd Quarter 2012
 - EBM Reviews - Database of Abstracts of Reviews of Effects 3rd Quarter 2012

At the bottom of the dialog are "Cancel" and "Save Group" buttons. The background interface shows a search bar with the text "Enter keyword or phrase (* or \$ for truncation)", a search history table, and an "Actions" panel with a "Display" button.

Database Preferences

1.
2.
3.

? Hints:

- Use the Field and Database Preferences options to determine how the Ovid system will dedup your set.
- Select a single Field Preference. This Field Preference will be applied first in determining which results to keep versus which results to reject when duplicates are found.
- Rank the databases based on which result format you prefer. Your Database Preferences will be applied in the order chosen, after your Field Preference criteria.
- Once your set has been deduped, you will have an opportunity to review the duplicate results.
